

DS-77 iQ Quick, Smart, and Easy to Use

The DS-77 iQ One machine. Multiple configurations.

Increase Productivity

- 3 standard feeders
- High-capacity vertical stacker

Process Invoices and Statements

- 2 standard feeders
- 1 Maxi feeder tray
- High-capacity vertical stacker

Help Enhance Customer Communications

- High-capacity feeder
- Maxi feeder tray
- High-capacity vertical stacker

Keep pace with today's office mail center demands

The DS-77 iQ combines unparalleled ease of use with the latest technology. From its intelligent features, such as CIS scanning technology, reading, and sorting capabilities to its compact footprint, the DS-77 iQ takes folding and inserting mail to the next level.

Process a wide variety of mail from transactional documents, such as invoices and monthly statements to marketing applications in different shapes and sizes. The intuitive color touchscreen prompts the operator through each step of the process. This scalable system is extraordinarily quiet and designed to fit perfectly into any work environment. With its wireless and LAN embedded capabilities, the DS-77 iQ connects to your network to enable remote diagnostics and assistance to provide help when needed.

Support an increase in security and integrity

The DS-77 iQ offers AIMS Office, a closed-loop mail piece verification solution that oversees the mail assembly process from start to finish. AIMS Office monitors and records the process

to verify that all communications are inserted into the correct envelope and alerts you if any document was misfed. Your mailings are completed with the utmost integrity to help support compliance requirements and privacy regulations.

Automate document preparation

Seamlessly pair your folder inserter with document automation software to gain efficiencies in your mailing operations. Quadient's optional Document Automation Software, Impress, adds significant value by helping to enhance the formatting, personalization, grouping, printing, barcoding, and addressing of your documents to confirm every customer's mailing contains the right documents and delivers the best customer experience.

Business Impact

Revenue Growth

Supports accelerated document processing time by enabling staff to focus on more revenue-driving work.

Customer Engagement

Helps to increase customer satisfaction by ensuring that communications are personalized, accurate and prepared for the correct recipient.

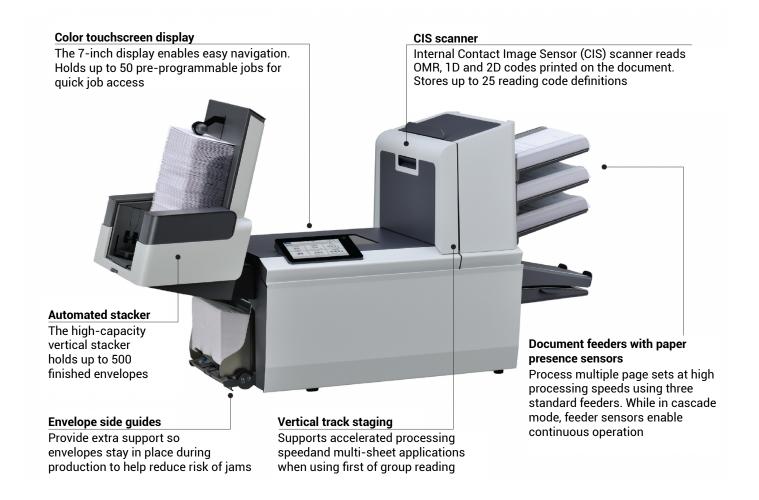

Risk Mitigation

Helps keep sensitive information from being compromised by tracking documents at every step with a closed-loop verification system.

Expense Control

Provides insight into mail spend to make smarter business decisions.

A STATE-OF-THE-ART GRAPHICAL USER INTERFACE

The intuitive, high-resolution wide touchscreen has a wizard-based, user-friendly interface, making it easy for anyone to create select and run their folding and inserting jobs.

Simply load documents and envelopes and press the start button. The DS-77 iQ will automatically measure the length of all loaded documents and envelopes and adjust all settings for seamless processing.

COMPLETE DIVERSE JOBS IN LESS TIME

The exclusive FlexFeed® tray enables you to process a wide variety of document types. Combine documents of different sizes simply by loading them into each feeder. The FlexFeed tray makes switching applications easy, no need to change or buy extra feeders to accommodate documents of different sizes.

HELP MAXIMIZE PRODUCTIVITY WITH THE MAXI FEEDER TRAY Use the Maxi feeder for heavier stock items like booklets, glossy material, or up to 325 BRE's. Or load up to 1,200 sheets for optimal productivity.
