

DS-64I FOLDER INSERTER
User-friendly Mail Assembly Solution

The DS-64i can be custom configured

Increase Processing Efficiency

- A single multi-functional feeder
- An intuitive easy-to-use control panel

Prepare Invoices and Statements

- Two multi-functional feeders
- Finished envelope side exit
- Store and recall up to 50 jobs

Easily Create Marketing Mail

- Crisply fold up to 8 pages
- Load 1,200 inserts or 325 BREs with optional MaxiFeeder

Add Business Reply Envelopes

- Feed sheets, inserts or BREs
- High-capacity vertical stacker
- Automate multi-sheet documents

Versatile, intuitive, and productive

The DS-64i folder inserter can accommodate a wide range of documents, inserts, and business reply envelopes (BRE), making it an ideal choice for a variety of applications and office environments. The DS-64i combines unparalleled ease-of-use with advanced technology. The intuitive color touchscreen control panel prompts the operator through each step of job setup and operation. Quadient Remote Assistance enables folder inserter diagnostics and operator support to help increase mail assembly productivity.

Easy operation

The color touchscreen display and automatic job setup make the DS-64i exceptionally easy to use. Simply load envelopes and documents and the DS-64i will adjust all settings automatically and even save them to the memory for instant recall. And, with automatic adjusting feeders, it can't get any easier.

Multi-page processing

Efficiently and accurately assemble and process multi-page sets. The internal CIS scanner reads inserter control codes (OMR, 1D or 2D BCR) which can be printed nearly anywhere on the document, providing superior document security and integrity as well as helping to save you hours getting your mail out faster.

DS-64i

1. High-capacity Vertical Stacker

Preserves printing order and holds up to 500 finished envelopes so operators spend less time loading

2. Touchscreen Display

7" color graphical interface with wizard-based programming helps to make operation simple and intuitive

3. Feeder Linking

Continuous operation is achieved by linking feeders. If one feeder runs empty, another one automatically takes over, allowing you to refill as needed until your job is complete.

4. Envelope Hopper

150-envelope capacity with on-the-fly reloading

5. Automatic Collator

Collate and fold up to eight pages together

Processing flexibility

DS-64i's FlexFeed function allows you to process all document formats (inserts, documents, and business reply envelopes, etc.). Additionally, the "Daily Mail" function even allows hand feeding of multi-page stapled document sets.

Efficient processing

Load the feeders, and the DS-64i will accurately assemble the documents, fold, insert, and even seal the finished envelopes, all in one quick process. The high-capacity envelope stacker is designed to help improve accessibility and unloading of envelopes on the fly.

SPECIFICATIONS

Processing speed	Up to 2,000 envelopes / hour Up to 2,500 with Performance Package
Folding capacity	Up to 5 sheets 20 lb. single fold Up to 8 sheets with Performance Package
