

# High-Capacity, Offline CONVENIENCE STAPLER-C1

Enhance your user experience and increase productivity with an offline convenience stapler. The Convenience Stapler-C1 can be used to restaple documents that had been separated prior to copying, scanning, or sending a job. It can also be used for stapling those documents—up to 50 sheets—that have been output on an imageRUNNER ADVANCE, imageCLASS, or imagePRESS device not equipped with a stapler finisher. The stapler provides quick and easy corner- or side-page stapling. And since it can be attached to virtually any surface, you can have increased desk space and more placement options for easy user access.

## FEATURES AND BENEFITS

### Ease of Use

Loading and unloading the stapler cartridge is fast and simple—no wasted time here!

### Easy and Stable Placement

The Convenience Stapler-C1 can be placed on almost any surface with strong, double-stick backing.

### High Staple Volume

Competitors typically offer a replacement strip of 210 staples. But the Convenience Stapler-C1 has a 5,000-staple cartridge refill, so you can staple longer, saving time and increasing productivity.

Ordinary Clinch      Flat Clinch

### Flat Clinch

The staple closes completely flat. This helps reduce the curling that's typical of stacked documents with traditional clinched stapling.

## SPECIFICATIONS

PRODUCT NAME	Convenience Stapler-C1
STAPLING CAPACITY	2 to 50 sheets (64 gsm/90 gsm)
