

## HIGH-SPEED, HIGH-QUALITY SCANNING FOR OUTSTANDING PRODUCTION EFFICIENCY

The Canon imageFORMULA DR-G2140 USB production document scanner with USB-only connectivity provides a high-performance, reliable, and flexible scanning solution recommended for non-networked environments where Ethernet connectivity is not required.

### WIDE VARIETY OF APPLICATIONS

The DR-G2140 USB scanner is ideal for processing large amounts of documents in mission-critical, centralized production scanning environments. It has been developed to withstand the rigors of production-level scanning while maintaining high-speed, high-quality imaging. The DR-G2140 USB scanner can help businesses improve productivity, maintain continuity, increase efficiencies, and securely manage information.

### HIGH PERFORMANCE

The DR-G2140 USB scanner handles up to 140 pages per minute—both sides in a single pass\*—and holds up to 500 sheets in the ADF. It is also equipped with a dedicated, onboard image processing chip, making it capable of maintaining fast scanning speeds, independent of PC performance. These features all help contribute to improve productivity.

### RELIABLE AND FLEXIBLE

This scanner is flexible enough to reliably handle a variety of document types, from business cards to ledger-sized documents, long documents, and thin or thick documents,\*\* using its advanced feeding mechanism. This helps reduce labor-intensive pre-sorting and job preparation. Plus, double-feed detection helps to ensure that no data is lost. A durable, solid-body design as well as heavy-duty feed and eject trays contribute to the scanner's reliability.

### EFFICIENT, SMOOTH OPERATION

The DR-G2140 USB scanner features an intuitive control panel that allows easy access to scanner settings, and user-programmable job buttons for one-touch operation. This scanner is also equipped with a motorized paper feed tray that can be adjusted to the height of the batch, and flexible paper feed and output guides. This, plus the ability to handle a variety of document types,\*\* allows for unattended batch scanning, which can help optimize workflows and increase efficiencies.

### ENVIRONMENT IN MIND

The DR-G2140 USB scanner is EPEAT gold and is ENERGY STAR® certified. It also complies with both the EU RoHS and WEEE directives for the reduction of hazardous substances and waste products.\*\*\*

### CUSTOMER CARE

For investment protection, eCarePAK options are available to extend service beyond the initial 90-day, on-site limited warranty period. This can save on costs associated with post-purchase maintenance and helps maximize uptime throughout the product life.
