

Kofax Power PDF™ for Mac

Kofax® Power PDF Standard for Mac is a solution that can help provide users with control over PDF files with the ability to create, convert, and assemble industry-standard PDF files. Power PDF Standard for Mac is well-suited for small businesses and other users who need a fast, versatile PDF solution that can help to address their everyday needs for efficient document creation and exchange. Gain control of your PDF conversion, editing, forms, and collaboration processes.

POWER PDF STANDARD FOR MAC ADVANTAGES

Accurate document and file conversion

Power PDF Standard for Mac recognizes scanned text and reproduced complex layouts with columns, tables, and graphics. It even includes a proofreader tool that allows users to see and correct the text results.

Make a portfolio package of your PDFs

Create a portfolio to combine individual PDF documents into a single, manageable package for easy sharing and distribution.

Productive document review and mark-up

Dynamic stamps and a wide range of commenting tools provide users with advanced functionality for efficient document reviews and collaboration.

Help protect sensitive information with the redaction feature¹

Redact or erase text by setting the software up to automatically inspect documents to remove data that users mark as sensitive for document sharing.¹

Create interactive PDF forms from paper forms

With Power PDF Standard for Mac, users can create cross-platform fillable PDF forms that can help improve document collaboration with other users. Add radio buttons, tick boxes, text fields, and signature fields, and allow users to submit the forms in HTML, FDF, XFDF, and PDF formats.

Create multiple searchable PDFs at once with Batch OCR

Convert as many documents into searchable PDFs as needed with the Batch OCR feature. Users can let the process run in the background as they continue working in Power PDF or other applications.

Key Benefits

- Create PDFs that are compatible with the ISO PDF 2.0 file format
- Accurately convert PDF files into editable Microsoft® Office® documents²
- Enhance document security with encryption and redaction features¹
- Enhance document security with powerful encryption and redaction features¹
- User-friendly navigation experience
- Create and edit cross-platform fillable forms
- Turn paper documents into searchable PDFs more productively
- Touch up and edit text and images
- Streamline document reviews and collaboration
- Perform efficient searches

Newest Capabilities

- Expanded viewing options through split-view mode for editing
- More choices through font bar expressive font control
- Can easily import documents into compatible Mac devices from continuity camera
- Helps users to save time by allowing them to add multiple items to the library at once
- Additional automatic deskew independent of OCR standard options
- Flexibility to specify default zoom

Kofax Power PDF™ for Mac

BENEFITS OF POWER PDF STANDARD FOR MAC

No need to retype your documents^{2,3}

When working with PDF documents in other applications, Power PDF Standard for Mac can help users limit the need to recreate and reconvert files. Complex layouts with columns, tables, and graphics can be reproduced in compatible Microsoft® Word, Excel®, PowerPoint®, and Corel WordPerfect® documents.^{2,3}

Enhanced document security features¹

Add passwords with 128-bit and 256-bit AES encryption and permission controls to PDF files to help control document viewing, printing, and modification.

Manage and access documents in the cloud^{2,3}

Save and access stored documents in the cloud by connecting directly to Box®, Evernote®, Google Drive®, and Microsoft® OneDrive®, providing users with access to documents any time, anywhere, or by applications of supported mobile devices.^{2,3}

Create and assemble PDFs from compatible applications²

Quickly create industry-standard PDF files with security features that are compatible with all supported PDF viewers.¹

Perform smarter searches

Advanced search functions list and highlight all instances of found words in the document, allowing users to locate them with ease. Intelligent Looks Like Search™ capability helps find information like phone numbers, email addresses, and Social Security numbers via alphanumeric patterns instead of exact text.

SYSTEM REQUIREMENTS⁴

- MacOS 10.12, 10.13, 10.14, 10.15 (Mojave, High Sierra, Sierra, Catalina)
- Internet connection required for conversion to PowerPoint or PDF/A formats
