

THEREFORE™ @ HOME

YOUR OFFICE IS NOW:

VIRTUAL

Digital meetings, screen sharing, joint access to documents and tasks, electronic access to business documents instead of in-person meetings and paperwork. Real-time availability of all documents is a must!

MOBILE

Access documents, workflows and statistics on mobile devices, on a home or office computer, or simply over a web browser whilst maintaining security.

AGILE

Able to respond to change: real-time analytics, easily adapt system to new situations, add or remove users, change categorization, add new integrations, adapt workflows etc.

REMOTE WORK IS FLEXIBLE AND AGILE

THEREFORE™ OFFERS

- Low Cost of Entry
- Digital Access to all Information
- Collaboration
- Visibility of all Business Processes

THEREFORE™ WORKS WHERE YOU ARE

Therefore™ enables access to data within the office, at home, or on the go. Access documents using an installed client, a mobile app, or a web browser. Both on-premise and Therefore™ Online, can be used via remote desktop or VPN for remote working. Of course, security is ensured, which provides a seamless experience for workers within, or outside of the office.

WORK REMOTE TODAY WITH THEREFORE™

Therefore™ Online can be installed remotely, quickly and efficiently. New categories and workflows can be designed and installed online, ensuring business continuity when face-to-face meetings aren't possible. Quick set up ensures business processes can continue.

Outstanding mobility features.
