# SECURE DOCUMENT SCANNING
Choose from a variety of local and cloud destinations

uniFLOW online

uniFLOW Online users can scan documents directly from any supported Canon device to various local and cloud-based scan destinations.

Support for scan workflows, scan templates, and advanced document processing features provide users with the capabilities they need to efficiently send and store their documents.

Scan Destinations

- Scan to Desktop (local document folders)
- Scan to Local Network Folder (local shared folders)
- Box
- Dropbox
- Evernote®
- Exchange® Online
- Google Drive™
- Microsoft® OneDrive®
- Microsoft OneDrive for Business
- Microsoft SharePoint Online
- SAP Concur®
- Therefore™ Online
- Microsoft Teams

Secure Document Scanning Highlights

Scan Workflows. uniFLOW Online scan workflows follow the user on supported Canon devices.

Scan Template Library. uniFLOW Online offers easy and fast setup of scan profiles. Easy search and filter options help to ensure the required template is located quickly.

Scan Document Processing. uniFLOW Online users can benefit from easy scan processing, including a number of enhanced document quality features.

Real-time Report Generation. Easily generate scan tracking and allocation reports within the uniFLOW Online portal.

Improve Cost Control. uniFLOW Online Administrators can easily allocate scan amounts by department.
