

SEND PRINT JOBS FROM ANYWHERE

Mobile and Guest Printing with uniFLOW Online

uniFLOW Online allows users, regardless of their location, to print documents to supported MEAP-enabled imageFORCE, imageRUNNER ADVANCE DX or imagePRESS Lite device quickly and securely using a smartphone or tablet—just in time for the next meeting.

uniFLOW Online Print & Scan App

Submit print jobs through the mobile app by uploading a picture. Auto distort-correction and finishing options are available for optimum results. Using the Print & Scan App, you can release print jobs securely by scanning a QR code displayed on the user interface—for touchless print operation. You can even access and track your personal activity reports.

Email Printing

After emailing a print job to the device from an authorized email address, the job will appear in the user's secure print queue. Once authenticated, the user sees a single list of print jobs whether they were submitted via email or from their desktop.

Release job from secure queue

Mobile Printing for Guests

Guest printing can be provided by establishing a secure print email address for guests. After a print job is sent, the user will receive an email with instructions on how to retrieve their job using the secure temporary job code. The temporary job code is used to authenticate at the device to release their job. Default print functions like duplex and black-and-white printing can be set for guests.

Guest emails print job to guest email address

Guest receives a job code/PIN via email

Guest enters code at MFP to access the secure queue and release the job

Web Upload

Mobile workers can also submit print jobs by uploading documents to a secure website. The uploaded files will be added to their personal print queue and the job name will match the name of the uploaded file.

Drag and drop print jobs to the website
